
A
Each rule alone and in combination
filled: s = 0.5
open: s = 1.0
All three
No threshold shift
Threshold shift only
Synapse loss only
Neuron loss only
Whole-brain spikes
MBON rate
Learning index
MN9 feeding drive
Giant fibre rate
Median, % of healthy
200
100
0
B
Pathology confined to Kenyon cells (same Kenyon cell loss as pan-neuronal)
Kenyon cells only
Pan-neuronal
Whole-brain spikes
MBON rate
Learning index
MN9 feeding drive
Giant fibre rate
Median, % of healthy
100
50
0
C
Same number of neurons removed, different neurons
Hub (load rises with connectivity)
Shuffled
Antihub (load falls with connectivity)
Whole-brain spikes
MBON rate
Learning index
MN9 feeding drive
Giant fibre rate
Median, % of healthy
100
50
0
